

Final presentation expectations

We will be meeting in EMS-B next Friday, Dec. 12, 10 am-noon for our final project presentations. Please bring an archival copy of your CD to play for the class and turn in (we will not be listening to any projects in Pro-tools). Label your CD with your name, the title of your piece, its duration, the semester (F03), the class number (COMP 601), and if you have the technology, please label the spine of the case with your name and the title of your piece.

Please be prepared to talk a little about your project before you play it: give us the title, duration, what you set out to do, how you constructed the project, and if it's not finished, where you plan to go from here. If we have time, we'll talk a little about the projects after you have played it.

The easiest way to create your CD is to use the [MLINK CD player](#).
